

QWIK-FUSE-MPO

Qwik-Fuse MPO Field Installable Connectors

- No requirement for pre-engineered lengths
- Eliminates unwanted slack storage
- Consistent and reliable terminations
- No epoxy, no polish, no crimp
- Reduces scrap and waste
- Compatible with industry-leading splicers

Designed for fast and easy repairs, restorations, and upgrades, the CommScope Qwik-Fuse MPO connectors are field installable, splice-on MPO connectors that provide a reliable alternative to the factory terminated MPO solution by enabling customized and on-site termination. Qwik-Fuse MPO Termination kit is available to increase speed and reliability of termination

Product Classification

Regional Availability	Asia Australia/New Zealand EMEA Latin America North America
Portfolio	CommScope®
